HOW TO USE THIS TEMPLATE:

DETAILS TEMPLATE

In this package, you will find templates for flights, car rentals, hotels and tours.

If you are taking more than one flight or staying in more than one hotel during your trip, make sure you print copies accordingly for those specific pages.

These templates are ones I have personally used and continue to use to organize all our travels. It helps me keep all my information in one place. I can pull out the specific sheet when needed.

All my correspondence with vendors or requests for specific rooms, etc are also noted on these sheets.

The daily plan will help you plan our your day. I do not plan by the hour but have a rough idea of when we will do certain things.

BUDGET TEMPLATE

In this package, you will also find my budget template. I use this template as an overall cost breakdown for my trips.

I also use an excel sheet and make multiple workbooks on my trip sheet to give me an insight on what we have booked and how much we have paid for each item.

Like me, if you enjoy going on multiple trips a year, or even go to luxurious destinations on a budget, you can appreciate the importance of staying within budget.

This is where these templates help me.

I hope yu find these templates helpful and can continue using it for your trips.

EXTRA MONEY TO SPLURGE?

After adding your actual cost, is there any budget left over for you to splurge on your trip?

Depending on the destination you are visiting, there could be areas where you would like to spend extra on. Examples of this are:

A safari in Africa
Helicopter ride over a Glacier
Skydiving or a certain type of accommodation?

If there is no budget remaining, is there anything else you can cut back on?
